

Idaho Bureau of Homeland Security Presents

G318 – Local Mitigation Planning Workshop

Please register by September 22, 2014

Course Descriptions

This workshop focuses on local mitigation planning and the responsibilities of local governmental entities and will also benefit participants who work for the State by enhancing their ability to think of hazards and hazard mitigation from the local perspective. This workshop provides plan developers with the information necessary to prepare and implement a local hazard mitigation plan.

Objectives

- Define hazard mitigation and identify the benefits of mitigation planning
- Develop or update a local hazard mitigation plan
- Identify resources and guidance available for mitigation planning and plan implementation

Target Audience

This workshop is designed for local government officials, State officials, and others who are involved in the development of a local mitigation plan.

Prerequisites

Required/Recommended: None

Course Completion

Participants, who actively participate, attend the entire course and successfully complete the course will receive a Certificate of Completion.
